Annisa Fazhira

Project Management | Business Development Support

Tentang Saya

About Me

Information Systems graduate (S.Kom., Cum Laude, GPA 3.76/4.00) who delivers projects end to end. Led AgrimapGIS, a copyright-registered web GIS for the Bandar Lampung City Agriculture Office, from requirements to deployment, and keeps teams and stakeholders aligned through structured documentation and clear follow-up.

As Regional Coordinator of PERMIKOMNAS Region XV Lampung, aligned 11 student associations across 10 campuses and brought in 2 new member associations.Brings retail operations experience from a family minimarket and turns operational needs into structured processes and digital solutions.

11
associations coordinated across 10 campuses

87.80
SUS usability score (Grade A)

98%

Core Strengths

End-to-End Project Management

Manages the full cycle from needs identification and scope to planning, development, implementation, and evaluation.

AgrimapGIS: proposal to deployment

System & Business Analysis

Turns user needs into digital solutions through process analysis, requirements gathering, UML modeling, and database design.

Use Case · Activity · Class · MySQL Spatial

Stakeholder & Partnerships

Aligns teams and stakeholders, clarifies responsibilities, and makes sure follow-ups run as agreed.

11 associations · 8 regional programs

Administration & Project Control

Maintains project documentation, minutes, digital archives, progress tracking, and decision records.

150+ documents archived

Technical & Professional Skills

Project Management & PMO

- Project planning & scheduling
- Scope and requirements management
- Progress monitoring & reporting
- Stakeholder coordination
- Waterfall & Agile fundamentals
- Documentation and action tracking

System Analysis & Development

- Requirements gathering
- UML: Use Case, Activity, Class Diagram
- MySQL & database management
- PHP & CodeIgniter 4
- GIS: Leaflet.js & Turf.js
- Spatial data management

Digital Tools & Visualization

- Microsoft Office & Google Workspace
- Microsoft Excel & PowerPoint
- Figma & UI/UX prototyping
- QGIS & AutoCAD
- Notion & digital documentation
- Process mapping & data visualization

PROJECT EXPERIENCE

AGRIMAPGIS

Geographic Information System for Agricultural Activity Monitoring

PROJECT LEAD | JAN – JUL 2026

THE PROJECT

A web GIS that lets agricultural activity be mapped, validated, and monitored on one platform. Built for the Bandar Lampung City Agriculture Office, with Rajabasa District as the focus area. Already in use by the agency.

CodeIgniter 4 | MySQL 8.0 Spatial | Leaflet.js | Turf.js | Chart.js | Bootstrap 5

MY ROLE

- Owned the project lifecycle end to end: scope, requirements, design, development, deployment
- Translated client needs into 9 features and a UML-based system design
- Ran validation (SUS, spatial accuracy, expert) and handled publication and copyright

KEY CAPABILITIES

- GPS-based land mapping
- Two-layer geofencing validation
- Offline-first (PWA)
- Spatial buffer analysis
- KPI dashboard
- Dynamic thematic coloring
- Predictive harvest estimation
- Disaster mitigation

CASE STUDY 1

AGRIMAPGIS: PROCESS & DELIVERABLES

Waterfall delivery, from problem identification to publication

01 Requirements

Problem identification, user needs, scope of the agricultural monitoring features

02 System Design

UML models (Use Case, Activity, Class) and MySQL spatial database schema

03 Development

CodeIgniter 4, Leaflet.js, Turf.js, Chart.js, Bootstrap 5, offline-first PWA

04 Testing & Validation

SUS with 22 respondents, spatial accuracy test, expert validation

05 Deployment

Delivered for use by the Bandar Lampung City Agriculture Office

06 Publication & IP

Copyright No. 001266099; J-SIGN article accepted (SINTA 4)

WHAT THIS SHOWS

Scope control

Seven novelty features defined and delivered within the Jan – Jul 2026 timeline.

Quality measured, not assumed

Each phase closes with a verifiable output, ending in usability, accuracy, and expert scores.

Documentation discipline

Requirements, UML models, validation instruments, and the thesis were all prepared by me.

AGRIMAPGIS: RESULTS

87.80

SUS usability score

Grade A, Excellent · 22 respondents

1.82%

Spatial margin of error

Well within the 5% threshold

98%

Expert validation

Rated Highly Feasible

Acceptance letter, J-SIGN Vol. 4 No. 2, 2026 (SINTA 4)

Outcome: a deployed, measured, and published system, delivered from proposal to agency use as Project Lead.

PROJECT EXPERIENCE

IT SUPPORT INTERNSHIP

Pengadilan Agama Tanjung Pati Kelas IB

IT SUPPORT INTERN | JAN – MAR 2025

FEATURED BUILD

Duty Roster & Cleaning Monitoring System

A web application that makes it easier to schedule employee duty rosters (piket) and to monitor whether cleaning duty is carried out, so staff plan and track duty in one place.

1 Schedule
Assign employee duty rosters

2 Perform
Staff follow the posted duty

3 Monitor
Track cleaning-duty completion

Beyond the build: Tier-1 support, network upkeep, and a repaired visitor queue machine (next slide).

CASE STUDY 2

SPATIAL & OPERATIONAL DELIVERABLES

Office floor plan signage (AutoCAD)

3 Office Signage Maps

Ground floor, second floor, and outdoor area, drawn in AutoCAD to guide navigation around the office.

Jurisdiction Map

A map showing the area under the court's responsibility, turning the jurisdiction scope into a clear visual.

Visitor Queue Machine Repair

Diagnosed the fault and repaired the machine, restoring self-service registration for visitors.

Tier-1 IT Support & Upkeep

Resolved hardware, software, and network issues; maintained LAN, Wi-Fi, user credentials, and the IT asset inventory; ran regular backups.

SKILLS DEMONSTRATED

Turning an operational need into a working tool or deliverable, hands-on troubleshooting, and explaining technical solutions clearly to non-technical staff.

LEADERSHIP

PERMIKOMNAS Region XV Lampung

Regional Secretary (Apr – Aug 2025), then Regional Coordinator (Aug 2025 – Sep 2026)

11	10	8	2
student associations	university campuses	regional programs	associations joined

IMPACT & RESPONSIBILITIES

- Coordinated 11 student associations across 10 universities in Lampung Province, as the single regional point of contact.
- Initiated and coordinated 8 regional programs and activities with the management team.
- Mapped target associations and led outreach and branding that brought in 2 new member associations.
- Led cross-institution communication and partnership outreach, keeping activities aligned with national board objectives.
- As Secretary, managed official correspondence, partnership proposals, and regional administration.

OPERATIONS

Family-Owned Minimarket

Retail Operations & Inventory Assistant · 2019 – Present

50+	Daily	Direct	2019
SKUs monitored	sales reconciliation	customer service	involved since

OPERATIONAL RESPONSIBILITIES

- Monitored stock levels and product availability across 50+ SKUs as part of daily store operations.
- Performed daily sales reconciliation and kept transaction records accurate.
- Coordinated with suppliers on stock availability and replenishment.
- Served customers directly and supported day-to-day store operations in a family-owned business.
- Shows: inventory management, data accuracy, supplier relations, customer insight.

WHAT THIS SHOWS

Business operations
Daily exposure to stock, sales, and store flow

Data accuracy
Daily sales records reconciled

Customer & supplier view
Direct contact on both sides of a business

Why it matters: a first-hand view of the customers and partners a business serves.

RETAIL DIGITALIZATION: MARKET SNAPSHOT

47,692

Micro businesses in Padang

Dec 2024, Dinas Koperasi & UMKM Padang

42.75M

QRIS merchants, nationwide

Bank Indonesia, 2025

93%

of QRIS merchants are UMKM

Bank Indonesia, H1 2025

55–299K

Rp per month, POS apps

Kasir Pintar to Moka, by plan

Who already competes

Moka POS

Cloud POS for retail and F&B; from ~Rp299K/outlet

Majoo

All-in-one UMKM app; from ~Rp149K per month

Olsera

Omnichannel POS; from ~Rp128K per month

Kasir Pintar

Simple interface; from ~Rp55K per month

Public pricing; varies by plan and source.

Hypothesis to validate: price and digital literacy, not tool availability, limit adoption by small Padang retailers.

CASE STUDY 3

RETAIL DIGITALIZATION: GROWTH & KPI PLAN

Independent case study based on publicly available information

01 Market Size

47,692 micro businesses in Padang; 42.75M QRIS merchants nationwide

02 Customer Needs

Local studies cite low digital literacy and weak financial record-keeping

03 Competitors

Moka, Majoo, Olsera, Kasir Pintar: mature tools, about Rp55K–299K per month

04 Opportunity

Simple, affordable onboarding with local support for small retailers (hypothesis)

05 Go-to-Market

Reach retailers via associations and supplier networks,

06 KPI Plan

Track adoption, activation, and retention; set targets after a pilot baseline

PROPOSED KPI FRAMEWORK

Acquisition

New merchants onboarded per month, and share of merchants reached via partners.

Activation & usage

Merchants recording sales within 14 days; weekly transactions per active merchant.

Retention & value

30- and 90-day retention; share of sales paid via QRIS; time to onboard a new merchant.

Sources: Dinas Koperasi & UMKM Kota Padang (Dec 2024, via UIN IB thesis); Bank Indonesia QRIS data (2025, via academic studies); POS comparisons by HitPay and UKM Indonesia.

SPEAKING & FACILITATION

HMIF ITERA Cadre Development Program

Guest Speaker, Organizational Management · Sep 2025

~60 participants

- Delivered a session on organizational governance, coordination, and development.
- Shared practical coordination experience from leading a regional organization.

ICHASTI International Conference

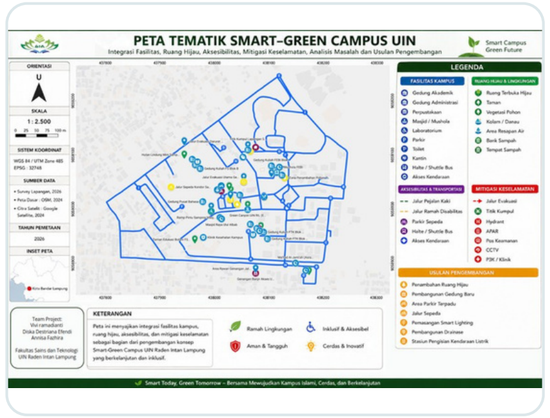

Moderator & Operator (2026) · Administrative Staff (2025)

~250 attendees

- Moderated sessions in English with guest lecturers from Russia and Thailand.
- Operated the event's technical run; managed guest and participant data in 2025.

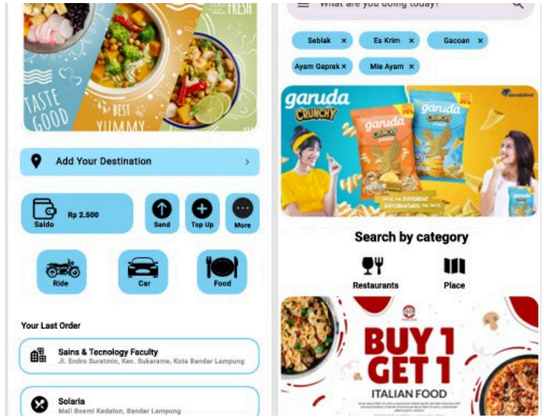

OTHER PROJECTS

Smart & Green Campus Map

3RD PLACE NATIONAL

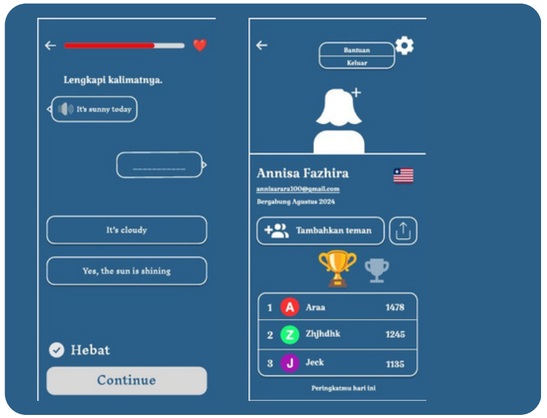

Thematic map of green and disability-accessible facilities across the campus, built in Google My Maps. Team of three. KST PTKI II, 2026.

RideCamp

FIGMA · UI/UX

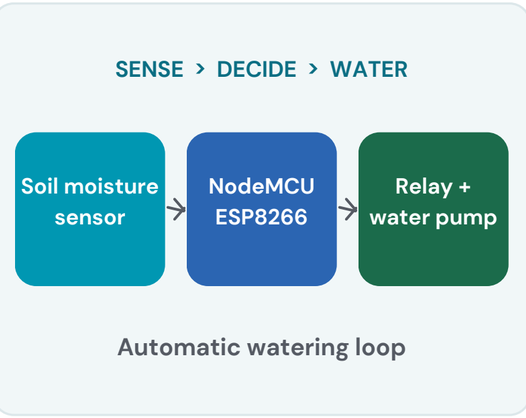

Campus ride-hailing and food-ordering app prototype. 104 pages of interface documentation, usability tested with 30 users.

Lingosphere

FIGMA · GAMIFICATION

Gamified English-learning app prototype: word matching and vocabulary, sentence completion with feedback, and a leaderboard.

IoT Soil Moisture System

NOV 2024 · IoT

Soil moisture monitoring that triggers automatic watering based on the condition of the planting medium.
